

PRODUCTIVE INSIGHTS FOR **THE MANUFACTURING INDUSTRY**

Harper Pearson draws from in-depth experience within the manufacturing industry to improve both operational and financial performance.

With over 55 manufacturing clients and counting, our accounting professionals hold a vast understanding of the dynamics of your industry. Our extensive work and continuous involvement with manufacturing enables us to stay current and knowledgeable of the industry's ever-changing landscape.

BETTER INSIGHTS FOR THE **MANUFACTURING INDUSTRY**

Whether you're working through contract terms, accounting inventory or simply looking for advice on how to accurately represent assets on your financial statement, Harper Pearson's vast industry experience can provide powerful guidance.

| NAVIGATE **TAX LAWS**

From capital expenditure and research and development to changes in entity structure and international expansion plans, the team at Harper Pearson can provide careful planning and guidance surrounding tax implications for manufacturers.

| STRATEGIC **CONSULTING**

Our extensive experience in manufacturing means we won't waste your time explaining cost accounting and production variance — we come with a deep understanding of how the industry functions and are ready to get right to work finding solutions on day one.

| PERFORM **AUDITS**

At Harper Pearson we pride ourselves in both total transparency and total confidence. This comes from a thorough understanding of the key elements that make up your company's financial statements, allowing us to efficiently test and verify the information for a quality audit.

| OUTSOURCED **ACCOUNTING**

Whether you're looking to bring us on as your designated accounting partner, or simply in need of a single-task solution, Harper Pearson offers a variety of smart outsourced accounting solutions designed to deliver professional support that allows your team to maintain focus on the task at hand.
